Hello,

The content I deliver for Visa, Inc., is confidential, so I don't have current writing samples to share. Please refer to the following online help systems I created and maintained for my last few roles at National Instruments. Obviously, I have not contributed to that content set for more than 5 years and have no control over its current state. However, these examples demonstrate the types of conceptual, task-based, and reference content I can produce.

- TestStand (<https://www.ni.com/docs/en-US/bundle/teststand/page/user-manual-welcome.html>)
- TestStand API Reference (<https://www.ni.com/docs/en-US/bundle/teststand-api-reference/page/tshelp/teststand-intro.html>)
- TestStand Semiconductor Module (<https://www.ni.com/docs/en-US/bundle/teststand-semiconductor-module/page/tsm-help.html>)

Sincerely,
Callie Jones
